**GLOBAL to showcase industry-leading technologies,
systems and services at West 2009**

McLean, VA – January 13 – Global Strategies Group (North America) Inc. will demonstrate its industry-leading technologies, systems and services at West 2009, co-sponsored by AFCEA International and the US Naval Institute, at the San Diego Convention Center from February 11-13 (Booth #636). With over 40 years of experience, GLOBAL leverages its deep domain and analytical experience to rapidly develop technologies and systems into operational solutions for the US Navy, US Coast Guard and other clients in the defense, intelligence and homeland security communities. GLOBAL provides integrated technologies and services for maritime domain awareness, innovative geospatial information systems and automated watchstanding, state-of-the-art electronic charting and navigation systems, dynamic bandwidth management and network optimization to accelerate mission success – on land, in the air or at sea.
