GLOBAL North America Wins \$3.1M Contract to Provide Mobile Support Vehicles for US Border Patrol Operations

MCLEAN, Va., October 2, 2009 – [Global Strategies Group \(North America\) Inc.](#) (GLOBAL North America), a leading provider of defense technologies to the national security community, recently secured a \$3.1M contract to provide the next generation of Customs and Border Protection (CBP) mobile tool trucks to support the agency's drug interdiction and border security efforts.

Under the contract, the [Defense Engineering & Integration](#) business of GLOBAL North America will integrate 20 medium-duty (maximum gross vehicle weight, 26,000 lbs) diesel-powered Mobile Support Vehicles (MSV), with an integral diesel generator fitted within a custom body, and equip them with approximately one thousand hand and power tools. The MSV will replace its predecessor, the Mobile Support System (MSS). The MSS was designed and configured by GLOBAL North America, in conjunction with CBP, during the late 1990's. Through the middle portion of this decade, over 75 MSS units were delivered by GLOBAL North America and most are currently deployed in support of CBP operations throughout the US.

The new MSV is a completely self-contained unit that allows CBP to support intrusive inspections in virtually every location in the US, in all weather conditions. Delivery of all 20 units is planned by the end of September, 2010.

About Global Strategies Group (North America) Inc.

[Global Strategies Group \(North America\) Inc.](#) is a national security solutions provider with a significant technology pedigree. The company delivers technologies, software and services ranging from innovative C4ISR systems, counterterrorism and intelligence, and force mobility and modernization systems exclusively for clients in the defense, intelligence and homeland security communities. In September 2009, Global Defense Technology & Systems, Inc. (GLOBAL Defense Technology), the holding company of GLOBAL North America, filed a registration statement with the Securities and Exchange Commission for a proposed initial public offering of its common stock.
